PH 142	Tutoring	Tutoring	Tutoring	Tutoring	

*BZ 110 tutoring is offered from 5pm—8pm ; CHEM 111 tutoring begins at 6pm on Mondays

Welcome to TILT Tutoring!

Please take a moment to read about our program.

Tutoring at TILT is dependent upon a **collaborative** learning environment where students and tutors work together to expand their knowledge on courses here at CSU. This **group tutoring** model is a way to ensure students at different levels can continue to grow with the material and allows us to make a larger impact.

Community Expectations:

1. Our tutors are peer educators and **may not have all of the answers.**
2. Tutors will exercise Academic Integrity, they do not have answer keys and **cannot give you answers** on for credit assignments.
3. A tutor may ask you to **work with your peers** because together your knowledge is greater.
4. The Great Hall will be an environment **free from discrimination and prejudice.**
5. We work closely with professors and appreciate students **focusing on the material** instead of on faculty members.
6. We use **group tutoring models** and do not provide one-on-one tutoring.
7. Students would **come in with specific questions**, please look at assignments or other course material before asking for assistance.
8. **Have fun!** Engage and you may find community within the room.
