

Course(s) Related to Teaching Goal

Years Teaching

Number of Courses Taught to Date

Teaching Effectiveness includes proficiencies in 1) motivating students; 2) tailoring instructional strategies and presentation of material to actively engage students in critical thinking and learning; 3) cultivating a challenging, inclusive, and supportive class climate that effectively prompts students to pursue learning outcomes; 4) promoting substantive exchange and inclusive pedagogy; 5) aligning curriculum, assignments, and assessments with course objectives; 6) applying pedagogical content knowledge to instructional decisions and 7) providing frequent feedback and assessments. Use these proficiencies explained in more detail on the *Framework for Teaching Effectiveness* to determine your current level of teaching effectiveness and to set a teaching goal.

**Part I. Identify Strength, Goal, Achievement Plan, Measurement Plan**

Instructor: This form is meant to be a <u>summary</u> of your strengths, goal(s), plans, and evidence of teaching effectiveness for the year; it is recommended to be 1 – 2 pages in length with attachments and/or links to evidence and other documentation.		Reviewer Comments:
<b>Strengths</b>	<p><b>Teaching Strengths:</b> What do you feel good about as a teacher? What do you know you do well?</p> <p>With which domain on the Teaching Effectiveness Framework do these strengths most closely align?</p> <p>How can you envision sharing these teaching strengths with your colleagues? (i.e. Lunch and Learn, lead a discussion group during a staff meeting, form a professional learning committee, email teaching tips, create a google doc to share tips, mentor a colleague)</p>	
<b>Planning</b>	<p><b>Teaching Effectiveness Goal:</b> To establish your goal, focus on growth. Write a goal that is specific, measurable, attainable, relevant and rigorous (but realistic) and time bound. Consider these questions in relation to the goal: Where am I in skills, dispositions, knowledge? How much growth is realistic in one year? How will I achieve this growth?</p> <p>Teaching Effectiveness Proficiency Addressed (see Framework for Teaching Effectiveness):</p>	

	<p><b>Rationale for goal:</b> How does the goal draw on evidence-based practices, student or peer feedback, self-reflection, and/or other resources? How will it improve student success?</p>			
	<p><b>Action Plan:</b> What specific steps and/or combination of steps will you take to achieve your goal? Examples: attend disciplinary workshops or other professional development on teaching practices; join a TILT-sponsored peer observation group; solicit feedback from students, peers, or a mentor; study and implement effective teaching practices.</p> <table border="1" data-bbox="142 454 1549 722"> <tr> <td data-bbox="142 454 844 722"> <p><b>Professional Development/Planning</b></p> </td> <td data-bbox="844 454 1549 722"> <p><b>Practices to Integrate by (date)*</b>                      *NOTE: when you first complete the form, you may not know which practices you intend to integrate so this section may be left blank temporarily.</p> </td> </tr> </table>	<p><b>Professional Development/Planning</b></p>	<p><b>Practices to Integrate by (date)*</b>                      *NOTE: when you first complete the form, you may not know which practices you intend to integrate so this section may be left blank temporarily.</p>	
<p><b>Professional Development/Planning</b></p>	<p><b>Practices to Integrate by (date)*</b>                      *NOTE: when you first complete the form, you may not know which practices you intend to integrate so this section may be left blank temporarily.</p>			
	<p><b>Measurement Plan:</b> How will you gauge progress toward your goal? Examples: ask students' feedback on new instructional strategies; identify changes in student outcomes; request peer observation and input; analyze your strategies by reviewing a video of your teaching; systematically note students' body language, energy, and engagement.</p>			
<p>Part II. Reflect, Collect Evidence</p>				
<p>Evidence</p>	<p><b>Evidence of progress toward goal and of impact on student success:</b> Attach and explain evidence of your progress toward your goal in the year being evaluated and how this progress builds from previous years' efforts. Evidence might include curriculum samples, student work, student feedback, peer feedback, student assessment samples, or student success data.</p> <p><b>Evidence of Instructor Progress Toward Goal:</b></p> <p><b>Evidence of Impact on Student Success:</b></p>
